

Structured Texting platform for collaboration between Physicians & Nurses

Smart Phone based secure, HIPAA compliant, structured texting platform for Physicians and Nurses to collaborate effectively, make informed decisions, leading to connected care and enabling the healthcare continuum in Hospitals, Physician Groups, Skilled Nursing Facilities, Assisted Living, PACE programs and Home Health. Physicians can configure structured checklists for Nurses to mimic their train of thoughts on patient care, thus minimizing errors and delivering quality.

- Leveraging technology for connected care across hospitals, physicians and SNF care givers is needed to address the upcoming healthcare continuum
- Ineffective communication is the root cause for 66% of medical errors. Improved texting, access, productivity results in better care outcomes
- Physicians have ability to configure structured checklists for Nurses to mimic their train of thought to improve efficiency and minimize errors
- Enables MDS Nurse to manage Medicare Recertification requests electronically with Physicians thus leading to cost savings
- Unlimited user licenses starting at less than \$1 per bed/week/facility
